+970-569-657-930

Skills

Proficient: C++,Java,SQL,python.

Moderate: Tableau, Power BI, Git, TensorFlow.

Projects

Cocktail : <https://github.com/Marwan-ALSarsour/Cocktail-Project->

- Developed a Java-based application to manage cocktail recipes and ingredients.
- Implemented a graphical user interface (GUI) using JavaFX for a user-friendly experience.

BikeShare Data Analysis: https://github.com/udacity/pdsnd_github

- Developed a Python program to analyze bikeshare data from multiple U.S. cities (Chicago, New York City, Washington).
- Implemented a command-line interface (CLI) to filter data by city, month, and day, and generate insights.
- Utilized **pandas** and **NumPy** to calculate statistics on travel time, station usage, user types, and demographics.

Education

Bachelor of Computer Science – Data Science Specialization

Palestine Polytechnic University , Hebron,Palestine, Aug.2022-June.2026

Relevant Courses: Machine Learning, Data Mining, Statistics for Data Science, Python Programming

Certifications

Programming for Data Science with Python Nanodegree — *Udacity*

Graduated February 2025

Completed a project-based program focused on Python, SQL, and Git for data analysis.

Languages

- Arabic (Native), English (Intermediate).
